Found— a Watch!

It looks as if it belongs to a substantial citizen. It feels that way, too; it's smooth and solid and thin. It slips into your pocket like a silver dollar and lies there snug and flat.

It keeps good time. It's the kind of watch your friends check their time by—that always gets you to your train while it is still in the station.

I've been looking for this watch for years. I know my customers want a thin, accurate, 7-jeweled, bridge-model watch like this; but until now the price of such a watch has been more than many of them cared to pay. That's why this new one is such a find. The name is "Ingersoll-Reliance." And the price is just about a third what you think it would be. It's \$3.50.

Or if you'd like this movement in a gold-filled case, you can have it—for just \$6. It's as big a value as the \$3.50 model.

W. O. T. U. CONDEMNNS SENDING TOBACCO TO MEN IN ARMY

(Contributed)

The primary object of the Women's Christian Temperance Union is the abolition of the liquor traffic, but early in the history of the organization many things were met that hindered progress toward the attainment of this object. Some of these hindrances were the use of tobacco and narcotic drugs was one of the evils to be so met, and for many years there has been a department of anti-narcotics. The organized motherhood of the nation has demanded that the tobacco evil must be put down. To this end, the anti-narcotic department has worked. The effects of nicotine poison on mind and body have been observed and moral as well as physical defects traced to their cause. After this study and observation, the conviction that the tobacco habit is one of the evils that must be met and no sanction to it must be given in any quarter.

Many mothers who are not members of the body of "organized motherhood" whose membership numbers more than 350,000 are pleading for the protection of their boys from this danger as well as the more widely recognized evils of social vice and drink.

A number of our states have passed laws forbidding the sale of cigarettes to minors, and our own state law forbids the sale of tobacco in any form to minors under twenty-one.

Therefore, the Women's Christian Temperance Union cannot consistently or rightly countenance the sending of tobacco to our soldier boys. It would be a great wrong to let the boys who have left their homes strong, clean and free. Also the money so spent will yet be needed for comforts and necessities if the war continues.

The members of the W. O. T. U. believe that the boys who are free from the tobacco habit will make the best defenders of our righteous cause and the best men and citizens when, in God's good time, they come home.

Therefore, the organization has endorsed the following resolution passed by the executive committee of the Arizona Sunday School association:

"Believing that the practice of sending tobacco to our soldiers is inconsistent with the teaching in our Sunday Schools and churches, and will have a reflex influence upon our younger boys and girls at home;

Therefore, be it resolved, that we do most urgently request all members of our Sunday Schools and Sunday school workers in the state, to refrain from sending or helping to send tobacco in any form to our soldiers."

The food administration is protecting the patriot against the slacker in business.
